Assessor Comments	An attractive line of April/May 2026 drop Sheepmaster lambs out of Sheepmaster/Dorper ewes and by proven Wild Oat Sheepmaster rams. Lambs have been raised on quality lucerne pasture and display good length, frame and muscling for age. These shedding-breed lambs are well suited to a range of production systems and offer a great opportunity to secure a quality line of future breeders. One ram lamb was identified and removed at assessment. A genuine line of hardy, low-maintenance lambs with excellent breeding potential and desirable shedding genetics.
