Assessor Comments	70 Very good quality yearling Heifers that are on the move they would make for very good breeders and nothing has been retained in herd alternatively they will go forward on grain or grass, they have had not any setbacks . Landfall Bulls have been used for the past 3 years and the length and shape is showing through. 18 in this lot were calves purchased as cow and calves , they are Texas , Lawson blood. there is another lot of steers and two lots of Heifers also in this sale. NOTE due to yard space the photos are of both lots together, the smaller Heifers are in this lot, the vidios give a very good indication. Due to a protracted calving this the younger lot of heifers with age not quality being the factor. The tail has been taken out.
