Assessor Comments	The third line of Boonerah's Annual Future Breeder Ewe Sale, comprising 500 Composite ewe lambs offered in two lines of 250 head. July 2026 drop, weaned and averaging 34.6kg. Bred from established Boonerah genetics, these ewes present a sound opportunity for buyers looking to secure young future breeders with further growth and development ahead of them. Perfect line of young ewe lambs to put away with the changeover of mutton prices where they sit seems a sound investment. All lambs have been drafted into 3 lines with a tail removed, giving you an even line of sheep that have a good base weight to be hopefully joinable in the new year. Purchasers in the past have had terrific results in conception and lambing of ewe lambs and have held the Boonerah ewe lambs in high regard
