Assessor Comments	*Quality Primeline Ewe Lambs - Tops of the drop* A great opportunity to secure the top draft of 203 x Primeline Ewe lambs of the 2026 drop, no ewe lambs retained! These lambs are June/July and bred out of a highly fertile flock that consistently marks at 160-170% Lambs. Replacement Ewe lambs have always been selected from twinning ewe lambs (Notch on the end of left ear).They present in forward store condition with skins starting to dry off with the season. Been using Lambpro rams for the past 14 years. These Lambs have been in and out of the yard this week for crutching & drafting the wether lambs off so i would suggest these are going to look the goods with a week of feed. *Only being offered due to the flock size and a slight change in direction*
