Assessor Comments	Buyers an opportunity to purchase a quality line of young Mumblebone blood merino ewes that are RWS wool certified. Ewes present in store condition and are best desribed as small to medium frame for age but should continue to grow out on fresh feed. The "Boran" sheep are very highly regarded for their quality of wool they produce each year and average 5.5kg wool cuts. This lot would suit going onto fresh feed & joining to the ram of choice in the new year. Ewes have done well on fresh feed since shearing but have put it all into their wool with a 50mm jacket. A great line of ewes with a great reputation in the wool industry and are RWS certified wool growers. At assessment out of the 100 assessed 1 x head was found with under shot jaw. Buyers due to the time of year it would be preferable to spread sheep over a B-double as will be too tight for 4 decks.
