Good	10%		

Assessor Comments	100 NSM Egelabra Blood future breeder Ewe Hoggets, Sept Crutched, Mulsed, Gudair vaccinated and are up to date with all their health treatments. Tinman Farming has a long standing Egelabra flock with over 30 years of breeding and has purchased rams out of the top % of Egelabra production sale over the past few years, their flock is classed annually by Egelabra classer Jack Kelly, with focus on breeding larger lambs and sustaining a micron of 19 to take advantage of a dual purpose flock. These ewes present as medium to large frame and rarely come to market in this capacity and are either sold through the Dunedoo Annual breeder sale or retained. A great opportunity to secure some young ewes with plenty of potential in front of them.
