1 Head	Warts

Assessor Comments Buyers 3 decks of very good quality PCAS eligible weaned Droughtmaster & Angus X steers. These weaner steers have all the right bloodlines and genetics and are best described as large frame relative to age. Weaners have been weaned for over a week and up to 2 weeks at delivery and are well educated by vendor through yards. A reputable line of cattle for sale that will be ideal to put away on grass and grow out to heavier weights. Steers that have a good performance record and will suit to grow out as heavy feeders or bullocks showing plenty of bone, length and confirmation. At assessment buyers 1 x steers were noticed with a wart on its side but don't see it as detrimental.
