Assessor Comments	Good quality line of vendor bred females NSM and presenting in fresh mainly forward store condition. Heifers show good frame and are bred from Genuine medium to larger framed females with excellent genetics used in herd. They represent the lead group on offer and are weighed into a 325-399kg @assessment. Lighter group of 103 also on offer(total of 149 heifers on Wollumbi) along with a line of 38 heifers on another farm. Any off types were removed post weighing to give nice line of 46 heifers true to type. If shown the opportunity heifers will respond well to better nutrition and be an ideal article to background to heavier weights or alternatively class up further and retain to join. Approx 15% exhibit some degree of wart.Please call for further information.
