Assessor Comments	Buyers, here is your opportunity to secure a quality line of trade cows and calves. 61 x 64 Angus and Droughtmaster cross cows and calves on offer. The vendor purchased these cows as 3 for 1 units in 2025. 28 of the cows were weighed as assessment and had a live weight range of 295kg to 524kg and averaged 423kg after a 16 hour curfew. These cows are mostly medium framed cows with approximately 15% being small framed and 25% large framed. They present clean in the udders and are doing a good job on their young calves. There is one cow in this lot that presents dry and we assume that she owns one of the older branded calves and has self weaned. The calves were bulk weighed and ranged from 50kg to 150kg and averaged 100kg. The extra 3 calves are older branded calves that we assume have been weaned by the cows that have baby calves. These extra calves will be thrown in. Please note there is one unbranded calf with a small dog bite on its off side hind leg. Please note these cows have been pretreated for cattle ticks, it ill be the purchasers responsibility to ensure all cattle tick rules are followed.
