Notable Traits

	Traits
5 Head	Light pink eye scar
8 Head	Light warts
10 Head	Recovered ring worm

Assessor Comments: Very well bred line of Dollar angus blood steers. These cattle are off lighter type country with predominantly unfertilized native pastures. these steers have done very well for previous purchases with excellent growth rates on grass based systems acheived. The cattle are well handled and as such very quiet. Weights were measured 1month ago and average daily weight gain at assessment average is just over 1 kg per head per day. Please note this is the top 58 of 80 steers from this mob. Approximately 8% of steers noted to have light pinkeye scarring not detrimental. Approximately 14% light wart not detrimental. Recovered ring worm 17%.
