Handled With: Bikes , Dogs , On foot , Vehicles

Notable Traits

	Traits
1 Head	Horns
1 Head	large udder
1 Head	Pink eye scarring
1 Head	small lump

Assessor Comments	An opportunity to purchase station mated Angus and Angus cross cows that regularly preg test above 90%. On a rising plane of nutrition, calves at foot are sired by NB Genetics bulls, ranking in the top 6% of the breed, and bulls by Texas Angus and Mountain Valley Angus. The vendor undertakes an annual heifer selection program, where the calves regulary rank in the top 50% of the breed. The cows were a pleasure to handle throughout the assessment and are doing an excellent job on their calves (21 heifers and 21 bulls). The vendor normally takes calves through to heavy feeder weights and is selling solely due to dry conditions. Vendor regularly achieves feedlot weights by 18 months of age on winter pastures.
