Temperament

Yards	Crush	Paddock
Quiet: 21 head	Quiet: 21 head	Quiet: 21 head

Beautifully quiet, easy to handle heifers, which were a pleasure to handle through the yards.

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
15 Head	Very slight to medium ringworm on face/neck of 15 heifers
3 Head	Very slight white markings on udder / underline

Assessor Comments: A nice line of one-mark, beautifully quiet tempered, YAMBA Angus Stud bred, PTIC heifers.These heifers are very well developed, exhibiting good large frames for age, with impressive carcass shape along with softness & stretch in abundance. Heifers are presenting in very fresh, forward condition, putting them in perfect stead to continue growth & development throughout their pregnancy term, whilst not being overdone for calving. Easy doing heifers, which were a pleasure to handle through the yards, due to their quiet nature. These heifers represent the line of 21 in a mob of 35 heifers that were Ai'd, which have successfully joined on the first cycle to registered bull, MILLAH MURRAH VON STONKER V431, selected for low birth weight figures combined with very good growth rates. Heifers are approximately 115 days in calf, & are set for a late Autumn/early Winter calving. A very attractive, excellent quality line of soft & shapey PTIC heifers, which are well grown, & should continue to develop into lovely, quiet, large-framed young cows. A great opportunity to secure a top quality, one-mark line of young breeders with exceptional breeding & a lifetime of production ahead of them. Please note, a large portion of the mob present with relatively minor ringworm, which will naturally heal over time & is not affecting their performance in any way. The other line of 14 same mark heifers, which joined through natural conception on the 2nd cycle to a registered TE MANIA sire also on offer
