Assessor Comments	A very good line of young Angus cows and calves PTIC back to the Karoo Angus bulls. These cows are on their 1st and 2nd calf are medium to large frame and are doing an outstanding job on their calves. The calves average 215kgs with the odd steer calf being marked late but should soften down given time. These young units provide a outstanding opportunity to increase you herd and still have some cash flow just around the corner with a large weaner in the Autumn. Young cows and calves that wont disappoint.
