Totals			**7%**	**93%**	**100%**

Comment on Fat Score 1 Cattle: Heifers have lost all their milk fat since weaning and have felt the effects of a particularly hot few weeks before assessment. All fit and healthy with ample energy levels. No concerns travelling long distances however for trips over 800km a spell is recommended.

Vendor Bred: Yes

Stock History: Bred in light forest country north of Richmond and brought to the downs as weaners. Heifers are out of a highly functional herd of moderate frame, highly fertile breeders with an excellent temperament.

Lifetime Traceable: Unknown

Bloodlines: Out of a herd of soft Brahman and Brahman cross cows by Charolais, Brangus and Brahman bulls genetics are predominately Baronessa, and Elrose.

Grazing Conditions: good quality stand of dried off Mitchell grass on open black soil downs.
Returned same

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Eligibilities	Russian Eligible Saudi Eligible
J-BAS Score	6

Vendor Comments	A line of softer crossbred heifers not suitable for us to retain as breeders. All heifers have been weaned and given an extensive education. part of our annual turnover of weaners that are more suited to southern markets.

Joining Details	Station Mated - Continuously Joined Bull Breed(s): Droughtmaster
Preg Tested?	No, this lot was not pregnancy tested.
Other Joining Details	Heifers have had access to a young Droughtmaster bull which was removed at assessment.

Quality Grades		Store Condition		Muscle Score	
Very Good	16%	Store	97%	C	100%
Good	76%	Bck Store	3%		
Fair	8%				

Temperament

Yards	Crush	Paddock
Docile: 36 head Quiet: 84 head	Docile: 18 head Quiet: 96 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Heifers have received an extensive education and are a credit to the vendors and their weaner education program. Easily drafted through the yards with minimal input from handlers. small percentage of heifers turned around in the race but were easily turned around and did not fizz up under the pressure. all settled quickly and quietly once drafted.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments	A good quality line of light weight Crossbred heifers with no weight in them. Exceptional temperament with extensive education. These heifers have had all the hard work and handling done and just need time to fill their potential. Moderate framed heifers out of a highly functional and fertile herd of brahman cross cows by Charolais, Droughtmaster and Angus bulls, small percentage of "composite" heifers considered a mixture of the above breeds. Predominately #4's 6-9 months in age with a very small percentage of #3 heifers. Heifers are considered too soft to retain as future breeders on vendors northern breeder block and more suited to southern markets. ideal heifers to tuck away over the growing season and turn off as backgrounders and feeder heifers or join to the bull of your choice.
Assessor	**Ashley Naclerio (Level 1 Accredited)**

Delivery Period	17/11/2024 to 22/11/2024 (6 days)
