Assessor Comments	65 Angus Heifers with 69 CAF, quality young Landfall & Ardrossan Angus Blood heifers. Heifers in a store/forward store condition & showing plenty of maternal traits & putting plenty of milk into their very fresh calf averaging 158 kg. Heifers that will grow into a very neat one mark line of cows. Calves have been marked & received a 5in1 & Easy-dose. Heifers have been running back to the Angus bulls for 12 weeks since 6th of September & taken out 24th of November. Given the early stage of pregnancy we have preg tested the heifers at time of assessment with, 40 heifers being back in calf to the first 6 weeks of pregnancy, another 6 showing signs of pregnancy & the other 19 currently non-detectable at this early stage. Making them a genuine 3in1 opportunity. ** preg test certificate attached** 2 Heifers with old pinkeye scarring . Please note 3 calves had beginning of pinkeye at assessment & all were treated.
