Quiet: 92 head Slightly Stirry: 25 head	Quiet: 87 head Slightly Stirry: 30 head	Temperament not assessed in Paddock

Mainly relaxed cattle but will get agitated under pressure. Found they worked well through the race and crush, odd steer did stir up in the crush but soon settled once with mob. Flowed through yards and gateways without any problems.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles
Assessor Comments	Found these to be a good line of young steers that are displaying light to minimal fat cover. Good store to forward store condition, clean and fresh in the coat which can be seen in photos. Considered good framed steers for age for far northern bred cattle. Clean and tidy around the head, all the hard work has been for you. Ideally suited for the Downs, Central or Southern areas. Am confident these steers will fire away on fresh feed. Found there to be 78 greys, 28 honeys, 8 reds, 2 baldy face blacks, 2 black & tan & 1 black steer. Do not miss out on these they are ready to keep going ahead. Vendor has pre-treated a number of times with Moxi Lab pour on Nil WHP and is that confident they will scratch clean on first inspection he will guarantee clearance. If found to be ticky he will pay for clearing dip and associated costs. Purchaser pays for scratch and clearing dip if found clean. Consider ideal steers to grow out for backgrounding, live export or grow out to slaughter weights.
