Comment on Fat Score 1 Cattle	All cattle strong and healthy enough to take a long journey but would recommend unloading and spelling after 1000kms.
Vendor Bred	Yes
Stock History	Mittagong often sell weaners and backgrounding cattle lighter in weight at this time of year. All cattle are given a 5 in 1 and internal/external at weaning and have a solid history with Uramol.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Mittagong have a long history of using quality Brahman bulls. Purchased from Broadlands, Lanes Creek Viva and Grenada.
Grazing Conditions	Steers have been in hand for an extended period of time during mustering. They were being fed good quality Rhodes grass hay along with approx. 700 other cattle. Returned to: Now separated from rest of the mob in yard until delivery. Access to good quality Rhodes grass hay and molasses supplement and good fresh water.
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Temperament

Quiet: 117 head Slightly Stirry: 5 head	Quiet: 110 head Slightly Stirry: 12 head	Temperament not assessed in Paddock

Like most northern bred Brahmans these cattle tend to get excited under pressure but found easy to handle through race and crush. Most trotted out from the crush but soon settled once back with mob. Odd steer was very agitated in crush but none showed aggression.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses
Assessor Comments	These steers have been in the yards for an extended period of time in very warm conditions running with at least 700 other cattle before assessment. Expect they would not have had full access to an abundance of feed and water during that time due mainly to the large numbers in the yard. Now that they have been thinned out into a separate yard, I would envisage a positive weight adjustment of about +3% on delivery from assessed weights. Found to be a good line of yearling steers that will bound ahead on better feed and conditions with plenty of compensatory weight gain. Steers have very clean and tidy heads and present in strong store to forward store condition. Majority are greys with small number of reds, honeys, and darker colours. Vendor will guarantee that the steers will scratch clean if going into tick free areas. Scratch and associated costs will be at the purchasers expense however if they fail the scratch vendor will pay for all clearing charges.
