Comment on Fat Score 1 Cattle: Very good fresh strong store to forward store condition steers.

Vendor Bred: Yes

Stock History: The Thornville herd of cows are known for quality, good temperament & frame comprising approx. 90% D/Master & D/M x & 10% Santa x, Char x & D/Master-Brahman x (by colour, good style crossbred cows). 15 by a neighbours Brahman bull.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Only Rondel Poll or Scurr bulls have been purchased in the last 8 years. There are 11 steers in the lot of another family member - Pure Rondel D/M.

Grazing Conditions	Very good quality Mitchell grass and herbages. The feed at Gue & Thornville is very good and the steers have had A1 conditions since birth. Returned to: Yard weaned on to Rhodes grass & Vetch hay. The cows are in very good order & the steers have had a dream run since birth.
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Other Treatment 16/06/2022 Trisolfen

Temperament

Yards	Crush	Paddock
Docile: 45 head Quiet: 146 head Slightly Stirry: 3 head	Docile: 30 head Quiet: 146 head Slightly Stirry: 18 head	Temperament not assessed in Paddock

The first time through the race & weigh box they are somewhat typical of fresh weaners when pressured yet inquisitive & placid to handle if managed appropriately. The majority are fidgety or keen when in or leaving the the weigh box yet settled down when reunited with the mob. Previous experience will show with the normal handling at Thornville the steers will be very settled by delivery. The Thornville cattle are well known for their quiet disposition and great temperament.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	#2 Steers by very good quality Rondel Droughtmaster bulls from a great herd of large frame Droughtmaster & D/M cross cows. 181 are 252-379kg with 5x 380- 410kg & 8x 410-451kg. They have performed exceptionally well. Steers showing great length, depth & bone structure, with plenty of frame to add weight. The steers will be handled until delivery in a normal weaning process as if being retained. Very tidy around the head with a large majority of polls. 1 Angus cross steer, a black Brahman D/M cross, 15 steers with slight brahman content showing moderate crest/hump - all good quality. 3 steers with very minor ringworm (clearing) 1 white underline & feet. 11 steers belong to another family member & are pure Rondel Droughtmaster bred & blood. You will do well to find another line of #2 Droughtmaster & D/M cross steers as good - weight for age, quality, temperament and potential. Often retained to feeder weights.
Assessor	**Tim Salter (Level 1 Accredited)** Phone: 0429 649 693 Parallel Assessed By : Beau White
Delivery Period	26/11/2022 to 28/11/2022 (3 days)
