Very well mannered young weaners that handled well and were respectful of the handler and their surrounds a pleasure to work

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A line of young weaner heifers that are well bred and true to type, small frame with adequate bone that should mature with management. These heifers represent the lighter heifers of the vendors complete drop of 960 heifers that were weighed at assessment in a 160-179kg weight range with the genuine tail and lighter heifers drafted off. Reluctant early sale that is only offered due to seasonal conditions as heifers are traditionally held and matured by the vendor until classing in the Autumn. Note : The line of 38 Heifers included - 2 Heifers with old ringworm scars, 2 Heifers with a white belly and 2 Heifers that carried a cloudy eye (deemed not detrimental to the animals well being).
