Comment on Fat Score 1 Cattle: Cattle present in store condition, they have had a molasses supplement, during assessment they showed plenty of strength and energy and with trucking experience they would be able to travel long distances. However its suggested good spelling opportunities for those traveling long distances. Fit to load standards will be followed at delivery.

Vendor Bred: Yes

Stock History: Vendor bred weaners, from ex trade cows by good quality bulls.

Lifetime Traceable: Unknown

**Assessor Comments** Offering an exceptional opportunity for buyers with a line of 95 Vendor Bred HGP-Free #4 Steers that have had all the hard work done. These steers have been weaned, educated, and trucking experience, and they've had both Botulism and two 7-in-1 vaccinations. As a result, they are healthy, and in store condition—ready to perform. The cattle have been supplemented with Molafos Molasses since May. These wearers were bred Northern Coastal Queensland in tick country, they were sent to Barcaldine on agistment back in June, they are now in clean country and ready for an immediate delivery. It is a credit to the vendor on the work they have put in educating these wearers, it was noted by both myself and agistment property owner, in which they commended these wearers highly in their behavior around the property. A real opportunity as there as good compensatory weight gains to be had, buy and forget until after the wet. Also being offered in the same sale, 98 heifers similar description.
