Most heifers were quiet to handle in all parts of the yards and crush. Some heifers stirred up in the crush when being assessed however settled back to the mob quickly. 1 heifer noted stirry was agitated in yard and crush. I would advise buyer to allow plenty of time for cattle to settle in to their new environment.

| Assessor Comments | Buyers here is an opportunity to purchase a line of light weight store heifers to put away on summer feed. These heifers were good to handle and would ideally suit backgrounders or future breeders. |
