The heifers penned up from the back coolers quietly. They handled through the drafting pound well with only a couple becoming agitated but not aggressive. they all came up the race well, a few did not stand still on the scales but were not over agitated they were all quiet to walk through and take photos of

Handled With	Bikes , Dogs , Horses
Assessor Comments	A good line of weaned heifers that have plenty of frame to pack on the weight. Will be good feeder heifers and have the potential to be future breeders with quite a few polls in them. There are predominantly softer type heifers that all show some amount of cross of Droughtmaster Charbray and Brangus. They are all in good health and will buck away on good feed. Well-handled cattle that are mustered on horseback with dogs and bikes. Located in a tick area and treated with IMAX CD on 21.11.22. It was noted that 2 heifers had a small amount of fly bite on their neck at time of assessment.
