Assessor Comments: A nice line of 32 weaned bucket reared Friesian bull calves sired by leading A.I sires out of a large framed 700 cow herd. These calves are really on the do and the opportunity to purchase cattle ready for a booming spring is running out. Calves had show plenty of bone, length and heaps of scope to grow into thumping steers for any chosen market. The calves were

	weaned on the 5/10/21 and have had 2 shots of 7 in 1, 2 shots of Ultravac Botulinum and a pour-on drench. Just turn them out and watch them grow.
