Assessor Comments	A nice line of Red brahman heifer ready for the bull of your choice this breeding season. They are in good health, and it was observed that there was a few cycling while in the yards. They are by Bungoona brahman bulls and the vendor has used Bungoona genetics for many years. There are a few heifers that have not been dehorned properly as can be seen in the photos and a couple with horns that have not been touched. Treated with dectomax injectable on 23.11.22 and located in a tick area. 2 heifers were observed to have fly bites in their neck and one heifer is of brindle color. Handled with horses and bikes.
