Assessor Comments	A nice line of Grey brahman heifers that are ready to go to the bull of your choice this breeding season. They are in good health, and it was observed that there was a couple cycling while in the yards. These heifers come from herd that has used entirely Bungoona brahman genetics for many years they handled well through the yards with only a couple that were reluctant to steady when in the pound and race. They are calendar branded No.1 and No. 2. There is a number of these heifers with horn that has not been properly removed as seen in the photos and a few that have horns not touched. It was noted that 3 had small fly bites in their neck. Treated with dectomax injectable on 23.11.22.
