Assessor Comments	Attention all Steer growers today on offer we have 31 Droughtmaster / Droughtmaster Cross Steers. This is a terrific neat deck of very soft, easy doing, well grown Steers. On assessment the Steers averaged 276kg on delivery and are showing truly great growth and shape for their age. These Steers are from a very productive line of Droughtmaster Cows with plenty of their progeny producing outstanding growth and weight gains. Please note a few of the Steers are showing a bit more Brahman content and one being a brindle however are still a great attribute to the herd. The cattle are located in the tick area however Vendor will guarantee clear of the dip, buyer to pay transport. The Vendor has pretreated to help this process.
