Cows worked freely through the yards and did require some blocking , some cows became agitated in the crush and pound but settled once returned to the mob. No problems foreseen when handled by stockpeople. Cows observed being walked to yards and appeared to be settled and good to handle.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot
Assessor Comments	Buyers a great opportunity to secure a 3 in 1 package. A VGQ line of mostly Charbray Cows doing a great job on their USDA, NOP ORGANIC calves. Cows are ex Mt Emu a highly regarded female breeder herd in NW Queensland purchased PTIC in 2021. Cows show good bone, length and depth of body, all middle aged in the prime of their life and would be an asset to most breeder herds as they will perform in all conditions as shown by the job they are doing on their 150 kg calves in Mulga country. Calves are sired by Brangus ,Charbray and Brahman bulls, Cows have been rejoined to Angus Composite bulls since calving and given their condition and the season would expect to be good percentage back in calf. 3 cows observed slight fly rub marks not detrimental. Vendor has 5 Cows and calves similar quality from a different mob and 5 of these cows chance mated available to purchaser to fill 4 decks if required. Please note Vendor also has another 4 decks Cows and calves this sale
