Quiet: 55 head Slightly Stirry: 2 head	Quiet: 55 head Slightly Stirry: 2 head	Quiet: 57 head

Well handled cattle. Very easy to work through the yards and in the paddock. The Gall cattle have always showed a very passive temperament with many calves actually docile

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles
Assessor Comments	Quality line of big fertile well handled PTIC red tag EU accredited black cows. At testing, the entire cow herd tested over 99% in calf. Cows are majority Angus x Charolais Angus with some Santa and Santa Hereford evident with nice smooth hair type and some displaying naval. The lead of these cows are massive and had trouble fitting on the scales. These cows have done a great job with their calves to be weaned at delivery. Quite a few calves topped out at over 400kg. Calves being sold same day in the A+ weaner sale. Ideal re stocker cows to put a top in any herd. The scale of these cows also would allow a quick and profitable turnover. Sired by quality Palgrove Angus bulls with a 20 year history. Delivery will be a run out the gate 57 of 113 total black cows. Odd blue eye not detrimental.
