Quiet: 13 head Slightly Stirry: 2 head	Quiet: 13 head Slightly Stirry: 2 head	Quiet: 15 head

Well handled cattle. Very easy to work through the yards and in the paddock. The Gall cattle have always showed a very passive temperament with many calves actually docile

Handled With: Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles

Assessor Comments: Line of fertile well handled PTIC Blue tag EU accredited Red cows. At testing these cows tested over 99% in calf. Cows are majority Santa, red factor Charolais Angus, Limmo and Santa Hereford types . These cows have done a massive job with their calves to be weaned at delivery. Quite a few calves topped out at over 400kg. Calves being sold same day in the A+ weaner sale. Ideal re stocker cows . The scale of these cows also would allow a quick turnover. Sired by quality Palgrove bulls with a 20 year history. 2 cows observed with 1 slight bottled teat after being separated from weaner over night, also odd blue eye. Neither considered detrimental.
