Vendor Comments

An excellent line of quiet backgrounder type weaned steers being sold due to ongoing dry conditions. Steers are all vendor bred, very good to handle and have a great reputation for doing well.

Quiet: 100 head Slightly Stirry: 7 head	Quiet: 103 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Excellent group of vendor bred weaned steers that have been well handled through the yards, draft, crush and scales. They have been trucked from the vendors other property to the main station yards to be weaned. They showed no signs of aggression at all while being drafted, weighed and assessed, a very calm and sensible mob to handle.

Assessor Comments

A good line of vendor bred weaned steers, these steers have a very good reputation for performance being bred in lighter spinifex type country, so expect to see excellent weight gains on better feed. Buyers can purchase these steers with complete confidence that they will do very well for them going forward, the vendor normally carries these steers through to heavy feeder steer weights but has decided to lighten off some paddocks due to dry conditions around Prairie. They are bred in tick free country, currently located on the tick line so vendor has pre-treated steers to clear and will guarantee clearance on property. .
