Cows are generally good to draft and had block and stop in them, they have been well handled and broken in. Through the crush they were actually quite settled and calm, the moved off you In the yards and wanted to get away but settled well not under pressure. You can see in the video they walked out well.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot
Assessor Comments	A draft of good Bos Indicus cross cows and calves. Majority have a Brahman influence in them but are mainly flat back cows. There are plenty of Charbray and Droughtmaster X cows with plenty of frame and weight. The cows are not all age branded but are not old cows at all, they appear good in the head and have plenty left in them, are doing a very good job on the young angus and Santa cross calves at foot that are powering ahead calves are tagged but are unmarked. There are a 3 calves less but these cows could still calve so will be left in the mob. 1 cow did have slightly larger teats but no other major issues or faults noted. These are being sold as a bigger run of 240 cows and calves , they are all the same cows and were just ran through a gate on arrival for ease of management before calving and have stayed in the same groups and will be offered that way. There is still a good trade in these cows are will go on as breeders as well.
