Temperament

Yards	Crush	Paddock
Quiet: 28 head Slightly Stirry: 8 head Stirry: 2 head	Quiet: 27 head Slightly Stirry: 8 head Stirry: 3 head	Temperament not assessed in Paddock

These heifers handled well for the better part of the assessment, however the more they got handled and moved about whilst assessing there were a handful of heifers that became flighty and caused the mob to stir when going through gates etc. No intent to cause harm was notice just a bigger flight zone required when handling.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A good run of young females with first CAF, predominantly Angus x Santa with the odd straight Angus. These heifers were purchased ex Raby station, Warren and were originally bred in Blackall QLD. They present a great opportunity to purchase and add to the cow herd with youth on there side. Calves were stated to be sired by Brangus bulls and are sappy and healthy with the heifers doing a great job as mothers. Whilst I consider these heifers to be majority quiet to handle they do have a lot of movement when confined and in close proximity to handler.
Assessor	**Ricky Looten (Level 2 Accredited)**
Delivery Period	28/03/2022 to 01/04/2022 (5 days)
