Assessor Comments	A very nice run of Angus PTIC Heifers. Heifers have tested 2 to 4 months in calf to the LBW Karoo Angus Bulls. Heifers have performed very well since arriving at "The Foleys" and are typical Tablelands Bred heifers. Moderate to large Framed heifers for their age. 3 Heifers in the mob showing white behind naval and on udder. 2 old pink eye scarring, not detrimental. A nice run of future breeders, that will become excellent matrons of the future. These Heifers are part of a mob of 52 that are to be offered in this sale, and will be sold as a run out the gate if purchased individually. The vendor will also have 12 PTIC young cows as a seperate lot.
