weeks from the 5/10

Frame		Quality Grades		Store Condition	
Large	30%	Very Good	100%	Store	100%
Medium	70%				

Temperament

Yards	Crush	Paddock
Quiet: 10 head Slightly Stirry: 4 head	Quiet: 9 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

Good to handle young females, still learning the job, but were kind to handle and were looking for the way forward all the time. A few were a little tense on the scales, but have recently undergone an A.I program, and more recently, preg testing, so their anxiety could be understood. Good to bring up from the back yards, push through the race and stood in the crush calmly.

Handled With Bikes , Dogs , On foot , Vehicles

Assessor Comments Very nice line of young future breeders. Retained as genuine keepers, Just falling out of the system as the family have decided to only retained the first cycle of joining. These females females represent the third round of joining, and should calve over a 3 week period, commencing around the 5th of October. All Preg Tested in Calf to L.B.W Hicks Beef Sires & Glenruben Angus sires, selected for temperament, structure, fertility & calving ease. Very quiet and easy to handle through the yards. Buyers please note. Vendor has another lot of the same heifers in sale, being the 2nd cycle females. Ideal to put with these heifers and have a nice line of 30 Heifers to calve over a typical 6 week period. Please see photos & videos for full contentment.
