Assessor Comments

A rare opportunity to buy cows of this age bracket from a herd of this size 1250. In July when the herd start calving these females will be 4-6 years old. They are sound and healthy, with many years of production still available to a successful purchaser. Some of the heavier cows have possibly had an easy year on the "better" paddocks as there was a thought they may have to be sold early to manage feed levels and total carrying numbers. 50 day joining period. Expect calves to arrive from early Aug. Please call if any questions. NB: 7 showing eye blemish,1 slight jaw, (1 cow N755 glazed and not seeing from near side eye.) Nothing detrimental to health or calf rearing ability. 1 white between front legs, 3 white splash near udder, 1 splash on cheek. ALL IN PICTURES.
