Assessor Comments	A neat line of joined Angus cows with Wagyu calves at foot. Cows are Monaro bred cows bought as leading weaner heifers in 2018. Cows are hazeldean blood with Ranger Valley/Jacks Creek approved Strathdale TF148-W0758 ML424 & Trent Bridge TBRFM133 Wagyu calves at foot. Cows present in forward store condition and are doing an excellent job on the F1 calves at foot. Cows have been continuously running with above bulls, with 18 head being 1.5-4.5 months in calf and the balance being undetectable. Majority 3-in-1 units. Calving pattern is spread due to never realigning since drought. Ideal article to trade with F1 markets continuing to strengthen. Vendor was very particular when purchasing Wagyu sires with careful consideration taken to bloodlines and saleability of offspring. Please note: Pick prefered on weekends. Agent can arrange freight to Riverina with weekly market trucks to Wagga. Odd cow with blue eye (not detrimental)
