Assessor Comments	EU Angus cows rising 3 & 4 yrs this winter, calves weaned 4 weeks ago and PTE. These young cows are light but confident they will take a bull this May/June, at assessment females were showing evidence of bulling. Cows would really jump with a drench, multimin and some quality feed. 1x heifer with warts on inner leg, 3x white udder, 1x cloudy eye, 1x white dot on shoulder.
