	Heifers were handled on ex dairy concrete yards and presented quite and easy to handle throughout the yards and crush.		
Handled With	Bikes , On foot , Vehicles		

Assessor Comments	An excellent line of Stoney Fold and Coolana blood heifers purchased ex Ballarat store sales, PTIC to low birth weight Moola Bulla bulls, to commence calving mid to late April for a 12 week period. Heifers present in ideal condition to calve and carry calves through winter. Would highly recommend the purchase of these heifers. There is 4 heifers in the mob that present with minor pink eye. Heifers were treated at time of assessment with orbin eye ointment. This is not deemed detrimental to heifers. Please note the vendor has a total of 66 heifers of the same remarks in the same auction, consisting of two lots of 21.
