Very quiet young females. Well behaved throughout whole assessment, just the one who became a bit anxious in the crush, listed above as slightly stirry. Very easy to walk through and get photos & videos of.

Assessor Comments	Very nice run of Angus x Hereford heifers that have been put together with the intention of producing a good Spring Feeder. All these Heifers are well on their way to smashing that goal, showing excellent growth for age, with most of them still a month or more away from their 1st birthday. Unfortunately a slow start to the cropping enterprise has meant the job cannot be finished and therefore leaving the door open for another buyer to take these heifers on to any chosen market. These females were purchased out of the lead pens at the sales & have the frame & structure to be head to toe productive. Long & deep with a real square back on them & plenty of width in their pin bones giving them a good wide back end. Feeder, Supermarket or heavy export, These are heifers with the scope to handle any job. Buyers please Note. 1 Heifer with a minor eye blemish, 1 Heifer with some minor ringworm. Not deemed detrimental.
