The slightly stirry heifers were only unsettled on the scales & walked away from the crush. Heifers were very good to handle in a big holding yard.

6 Head	White belly

Assessor Comments A line of predominantly Angus heifers that are excess to requirements & would suit a backgrounder, feedlotter or could be classed further for potential breeders. These heifers are well handled & are good to work in the yards. There is 2 blue roans, 2 greys,1 black baldy & 1 brindle heifer in the mob see photos & video. Buyers please note they will be preg tested on the 12/12/24 by the Texas vet & only PTE heifers will be delivered. Vendor is very confident on the preg test result, all heifers out of the mob sold so far have preg tested empty. Will supply a preg test certificate.
