Assessor Comments	A great opportunity to purchase a nice line of vendor bred Angus backgrounder steers. Antibiotic and Grain free. These

	steers have been on the rye and are really starting to power. Steers are sired by Knowla, Skibo and Curracabark Angus bulls. These steers will suit feeder specs or reach high end kill specs if given the opportunity. These steers older brothers have been grown out to feeder weights in the past and performed very well. Steers handled well through the yards with only the odd steer being unsettled when weighing. Noted no detriments at assessment. Steers average 326kg at assessment with range of 286kg-400kg.
