Stirry: 1 head	Stirry: 1 head	

Cattle are fine in larger yards if left unpressured. If hard pressure is applied, cattle tend to become agitated, until the

	pressure is released. Cattle moved backwards and forwards on the scales, but were generally easy to handle for experienced cattlepersons.
Handled With	Dogs , Horses , On foot , Vehicles
Assessor Comments	25 Good Quality, Framey Charolais X Steers, presenting in store to forward store condition, with a liveweight range at assessment of 237 to 368kg, for an average projected delivery weight of 281kg curfewed. Steers are sired by Palgrove Charolais bulls, and are all frame and ready to power ahead shown good nutrition, as they have shown fantastic weight gains through a very wet winter after weaning. These steers would be ideal to grow out to heavy feeders, or have the potential to grow to bullocks. Please note that one steer hit its back on a busted rail, and has taken some skin off over its back hips. He will be checked by assessor at delivery.
Assessor	**Jake Smith (Level 2 Accredited)** Phone: 0488 364 487
