These steers only get handle by one individual so they do react when strangers handle them - in saying that they handled extremely well in the yards while being weighed, filmed and photographed - 5 steers moved a little while being weighed and exited faster than the rest and 5 steers were docile on the crush while being weighed. Generally steers were very good to handle.

Assessor Comments: An exceptional line of grassfed accredited, EU Angus steers. These steers have grown out well given the very dry Autumn / winter. They are excellent feeder steers, showing great length and depth of body. Steers were good to handle in the yards and crush, all the hard work has been done here, they would grow out to excellent bullocks. Vendor has another 16 Angus EU steers in this auction.
