Assessor Comments	A lovely line of Wirruna blood Future Breeders. Presenting in ideal joining condition. These attractive heifers present with all the right characteristics of the breed and are very structurally sound females. They have been well handled and demonstrated a nice temperament at assessment. Their bloodline is known for improved milk, structural soundness and high fertility. They come from a long standing Hereford herd that used the Wirruna genetics for 12 years. These heifers would be a fantastic addition to any astute breeder looking to increase numbers or someone needing a well mannered line of females to maintain good temperament within their herd.
