Assessor Comments	*Quality EU Angus Weaners* 110 x EU Angus Steer weighing 287kg at time of Assessment. The Steers were weaned in the first week of October and have really jumped out of their skins since doing so. High Percentage of these Calves are AI'd bred by high performing Mandayen Bulls. They present in Strong Store condition and ready to bounce given feed. They carry all the accreditation's available in EU, PCAS Certified, Grasslands, Never Ever & Graze Accredited leaving every market wide open. They have good bone with deep muscle and have my recommendations. These Steers will not disappoint and the purchaser will be very happy with the performance of these cattle.
