Assessor Comments	59 Unweaned Heifers which are of good quality cross bred calves being 5-7 months of age. Cows are Charolais Xs, Charbray & Santa/ Santa X with them being of large Frame & Sires are Charolais & Ultrablacks Great opportunity too put light weight calves away with the amount of grass about Cattle have had a very wet cold winter and just need weaning, sun on their back and good nutrition and they will take off.. Heifers were good to handle through the yards and crush. While taking the video they did run a little but with good weaning, breaking and handling they will be fine. Calves will stay on Mother & will be Weaned at delivery. Note: Odd blue eye scarring- not considered detrimental.
