Cows handled reasonably well. They yarded easily and drafted without issue. A few were a bit quick and tended to stir around when in the yard with them, but none showed aggression and they all blocked well when stepped into.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A neat run of Angus Cows and Calves. Cows are in fair order and the calves appear to be growing well and looked good. Some good genetics behind the calves, and the AI and joining opportunity the cows have had should provide some exciting calves next season. ***Please note that one heifer calf had slipped into the paddock of cattle next door and isn't in the photos, nor has her weight been included in the calf weights. She matched in with the calves without issue though*** ***All of the calves are eligible for Greenhams Never Ever, most of the cows should be, but the Vendor cannot guarantee all are due to originating PIC***
