Steers were good to handle in the yard. There was only the odd steer becoming agitated whilst confined in the crush but quickly settled down once returning to the mob.

Assessor Comments	Buyers a Very good line of 76 Angus and Angus cross steers that present in good store condition. Steers stand on good bone along with good confirmation and have all the right attributes to make these steers reach their full potential. They have been on an oats crop since the 7th of July and are powering ahead and will continue to perform if given the opportunity. These steers are very tidy around the head with the majority being polled. This is a strong selection criteria when vendors are selecting their bulls. 4 steers noticed to have ringworm and 4 with warts. One steer with a large amount of white on legs and head and appears to be late marked. Steers are starting to lose their winter coat and are really starting to shine up. A good line of black steers out of Angus and Angus cross cows sired by Wallangra Angus Bulls that will not disappoint any buyer.
