Heifers will benefit from more handling. Most stood to be weighed. They moved freely through yards. There was one heifer that was still more agitated in larger yard when pressure was low.

Notable Traits

	Traits
1 Head	Blue/Cloudy Eye
1 Head	Pink Eye Calf

Assessor Comments A tidy line of first calf heifers that were chance mated prior to being weaned. Heifers were bred on vendors property at Hay from Brahman Cross cows and were running with Angus and Hereford bulls. They are doing a good job on the calves at foot, with some heifers notably lighter condition than others but strong and healthy. The calves are well bred and averaged 110kg, with one showing pink eye. It was treated at assessment.
