	Heifers were good to handle in the yard. There was only the odd Heifer becoming agitated whilst confined in the crush but quickly settled down once returning to the mob.

Assessor Comments	Buyers a very good line of 76 Angus and Angus cross Heifers that present in good store condition. They stand on good bone along with good confirmation & have all the right attributes to make these heifers reach their full potential. These heifers are very tidy around the head with the majority being polled. This is a strong selection criteria when vendors are selecting their bulls. 4 heifers noticed to have ringworm and 2 with warts. Two Heifers noticed to have slight scaring in their eye, however there doesn't seem to be a problem with vision. Some heifers showing some white under bellies. Heifers are starting to lose their winter coat & are starting to shine up well. A good line of Angus and Angus cross heifers which would be ideal breeders for the purchaser to join to a sire of their choice and will not disappoint any buyer. Please see photos for breed satisfaction. Buyers not vendor has another lot of heifers in same sale.
